Diyan Maner

Pune, Maharashtra, India, +91 9028844511, diyanmaner06@gmail.com

PROFESSIONAL SUMMARY

Information Technology undergraduate with a strong foundation in Java backend development and core computer science subjects including Object-Oriented Programming, Database Management Systems, Operating Systems, and Computer Networks. Experienced in building RESTful backend applications using Spring Boot, Hibernate/JPA, and MySQL, along with developing interactive data visualization tools during a research internship at the Indian Institute of Tropical Meteorology.

EDUCATION

B.Tech in Information Technology, Vishwakarma Institute of Technology — Pune
CGPA: 8.75, SGPA: 9.05

12th, Kendriya Vidyalaya Ganeshkhind — Pune
76.2%

10th, Kendriya Vidyalaya Ganeshkhind — Pune
82.2%

EXPERIENCE

Research Intern, Indian Institute of Tropical Meteorology — **Jun 2026 – Aug 2026**

Under Dr. Supriyo Chakraborty

- Developed an interactive web-based visualization for oceanic and climate datasets.
- Created visualizations to support analysis of El Niño-related patterns.

PROJECTS

Food Donation & Redistribution System
Java, Spring Boot, MySQL, Spring Security

- Developed a multi-role backend platform connecting donors, NGOs, and volunteers across the complete donation lifecycle.
- Implemented 20+ REST APIs with JWT authentication, BCrypt password hashing, and Spring Security role-based authorization.
- Designed relational MySQL schemas with JPA entities and mappings for users, donations, pickups, and deliveries.
- Built workflow-based APIs for donation posting, acceptance, pickup scheduling, and delivery confirmation.

E-Commerce Web Application
Java, Spring Boot, Hibernate, MySQL, Spring Security, REST APIs

- Developed RESTful APIs for product management, shopping carts, and order processing across the e-commerce workflow.
- Modeled product, cart, user, and order relationships using Hibernate/JPA with MySQL for persistent data management.
- Implemented transaction-safe order workflows to maintain consistency during cart updates and order processing.
- Secured buyer and administrator operations using Spring Security, BCrypt authentication, and role-based access control.

ACHIEVEMENTS

Internship research project published in *Ocean Digest*, a publication of the Ocean Society of India.

TECHNICAL SKILLS

Java	Spring Boot
REST APIs	Hibernate
JPA	Postman
